Necessity

"The area wide problem, therefore, is actually an old one, and the only answer can exist over the necessity of improving the highways in the Belle Glade area," says a special traffic study report of the Traffic Engineering Division of the State Road Department.

Advocating multilane highways, the report indicates that "the City of Belle Glade, with its minimum number of canal crossings, deserves considera-

Of Improvement Of Old Problem Says State Dept's Special Traffic Study

A truck bypass around the city and higher quality canal crossings" is recommended.

The report recommends:

1. SR 25, US 27 — The four-

lane section under construction should be completed through South Bay and farther to the south as required. Limited access should be provided in order that the interference of heavily laden trucks entering and leaving the traffic stream is mini-

mized.

2. SR 50 — The portion of SR 50 from South Bay to Belle Glade thence east as US 441 requires the same treatment as US 27 with thought given to a relocation from SR 15 north of the Hutton Canal east of Greenvale.

An alternative relocation might be the extension of SR 80 eastward from SR 27A to a junction with US 441 near the Agriculture Experiment Station.

The four-lane section should extend to the bridge over Hillsborough Canal.

3. SR 15, US 441 — This section also is in need of four-laning. The bridge over Hillsborough Canal is in deplorable condition and it might be necessary to construct a twin structure.

4. SR 715 — This section is presently serving as a bypass around the built up area and within a few years will require four travel lanes to accommo-

date the traffic volume. It is thought at this time that the truck usage of this route, particularly between SR 80 and Ave. "L" would warrant immediate improvement with the increase in truck sales anticipated to the year 1965.

5. SR 717 — This section with in the city limits is now tolerable and good except for the structures.

6. SR 827 & 827A — These primary and secondary routes should be assessed as to structure adequacy and improved as necessary.

6. Avenue "L" — This city street is providing service for heavy truck volumes both to the railroad and on to the east across US 441. It would be appropriate to initiate a four-lane improvement with special truck provisions to complete the bypass ring around the city.

One of the finest improvements made since the Lake Wales Amphitheatre winter home of the Rock Hills Passion Play, opened in 1952 was recent installation of a 30 foot aluminum telescopic flagpole.

A new 50-star American flag, which has been under construction by the Florida State Capitol in Tallahassee and atop the capitol dome in Washington, D.C., will be displayed every day of the year at the Amphitheatre.

Permanently attached to the east side of the concrete base is a 20 inch aluminum plaque (pictured above) which was dedicated in 1952.

She carried a prayer book showered with Sweetheart roses. Her only ornament was a string of pearls left by the bride.

Mr. Edward Murphy was master of honor. She wore an after-five frock of celestial blue organdy over taffeta. Her matching hat was made of a pink netting with velvet coronet. Miss Linda Grissom, cousin of the bride, and Miss Barbara Thacker, were bridesmaids. Their dresses were styled similar to those the honor attendants wore, they also wore net and velvet headresses. They carried bouquets of violets and pink Sweetheart roses.

"Don't Let Them Catch You!"

It is reported that there are a score or more youngsters who drive regularly to school and some after dark — who have permits for driving, ONLY WHEN ACCOMPANIED BY A LICENSED DRIVER.

What do their parents tell them — "Just don't let them catch you!"

Disrespect for law, and in this case disrespect for bodily injury, disrespect for the dollar damage, is instilled in children at a very impressionable age.

"Just don't let them catch you" learned at the parents knee opens the door as wide as circumstances and inclination urge.

Each parent has her own answer to this — What is yours?

In Service**Parties for the Bride.**

June is almost here. A word to the wise is sufficient, as the traditional time for wedding showers, teas, and receptions is upon us. Careful planning and attention to detail can make for security and dignity, instead of jitters and chaos. This book is just the reference you need for the wedding etiquette.

The Complete Book of Weddings, by Captain Fred W. Moore of Miami, Fla., is being reassigned to McGuire AFB, N. J., following his graduation from the flying training course for C-118 pilots at Tinker AFB, Okla.

Captain Moore received detailed instructions in routine and emergency operation of the four engine Liftermaster, and the company, Gary is the son of Mr. and Mrs. Herman Lynn.

The captain, son of Mrs. Mable Moore of 2918 S. W. Fifth Ave., Ft. Lauderdale, attended the University of Florida.

Captain Moore is married to the former Gay Schoeppe of 104 Amona Ave., Pahokee, Fla.

Second Lieutenant William N. Johnson of Pahokee, Fla., has entered the Air Force's school for T-37 jet aircraft instructor pilots here.

Lieutenant Johnson will receive 10 weeks of flying training to qualify him as an instructor pilot in the jet trainer. He will return to his permanent assignment at Moody AFB, Ga., upon completion of his tour here.

The lieutenant, son of Mr. and Mrs. Alex M. Johnson of 1921 Bacon Point Road, Pahokee, received his B. E. E. degree from Georgia Institute of Technology. He is a graduate of Pahokee High School.

A Point of View

A Vote Of Competence

In the next few days we will be choosing the Student Council officers for next year. Will we elect a slate of workers, or a group that carries the flag but not the load? Will we choose the officers because of their qualities or because of their popularity?

Last year's elections drew about as much enthusiasm as a bowl of cold water. Five candidates had enough interest to sign up their candidacy; the rest were drafted after the deadline. In the final election, only 350 students bothered to vote out of six-hundred eligible. This was a sad tribute to such an important institution as our student government.

Even so, this year's Student Council was a success one. It functioned well, and carried out many new projects. But the students didn't deserve it; it could just as easily have been a poor one, and might as well have been for all concern on the part of the student body.

These same students who didn't vote, who didn't show any interest, are the ones who cry loudest when one of their privileges are taken away. They must realize, though, that the purpose of the organization is to promote their own welfare and to present their point of view to the faculty. If they don't show any interest, how can they expect anything in return?

This year I urge every student to put himself into the election of these officers. Whether you decide to run yourself (and you are, if you are in the eighth through the eleventh grades), or if you decide to back your favorite candidates, do it with the determination and interest to win. Choose your candidates cautiously, for this may spell the difference between a student government that sits back and one that makes school a more enjoyable place.

This year the elections will not be as elaborate as in the past. It appears that they will just be slipped into a busy school schedule, and will not be given as much importance as they once were. BUT, if the students will take an interest — a personal interest — then we can succeed in restoring our student council to its once prominent position.

We cannot have a voice unless we are willing to speak.

During the past few months, I feel that this column has demonstrated my enmity for Communism. I might go as far as to say that I hate this menace to our very welfare as much as any person alive. Therefore, it is without hesitation that I make the following comment.

Our school is presently participating in the state-required American versus Communism course. I think it is a great course, and one that is badly needed. Every senior and a number of juniors are taking the course. The text book being used in the course is "The Masks of Communism," by Dan N. Jacobs. I have read the book and found it so interesting that it was hard to put down. But in this same book I have found, as have many other students, a great deal of one-sidedness toward the Western point of view.

This factor brings about two questions:

(1) Isn't our American system of government strong enough to be held up in the light objectively along with the Communist system, and still maintain its strength? I am convinced that it is.

(2) Shouldn't all propaganda be omitted from such educational materials? Not only does it make the student unnecessarily wary of its content, but it also exemplifies one of the things it is teaching against — indoctrination.

Now I will be the first to admit the great deal of good received by this book vastly outweighs any possible harm that these tendencies can do. But my point is: are such elements necessary in text books from which we will be getting a "open-minded" understanding of the problem? We need to study Communism, surely, for, without understanding it, we are in danger of losing our freedom and our lives. But to be implanted with solely an anti-Communist point of view, we are defeating the basic principle of American education: individual thinking.
